

# Ways To Save!✂️

Offering affordable options for professional photography has always been important to me, so in addition to the packages shown in my standard rates I've created several ways for families to save on my services.

## Quick Shoots

Save by arranging a day of 20-minute, back-to-back "quick shoots" with friends and family!

- Rates vary depending on the number of families participating- the more participating families, the lower the rate
- Approximately 25 color images in high resolution files provided on an individual image disc for each family
- Minimum number of participating families is four, maximum is ten
- Travel fees apply outside of Bellingham city limits. Fee is divided between participants and added to total (See travel fees on rates page.)
- **Participant who arranges a quick shoot day receives 50% off final rate!**
